## SECRETARY BRYAN QUILTS PRESIDENT'S CABINET

Washington, D. C., June 9.—William Jennings Bryan, three times democratic candidate for the presidency of the United States and author of nearly 30 peace treaties with the principal nations of the world, resigned to day as secretary of state as a dramatic sequel to his disagreement with President Wilson over the government's policy toward Germany.

The resignation was accepted by the president. The cabinet then approved the response which had been prepared to the German reply to the Lusitania note. Acting Secretary Robert Lansing will sign the document and to morrow it will be cable to Berlin.

Secretary Bryan will return to private life tomorrow when his resignation takes effect. It was learned that he intends to continue his political support of the president.

### Reasons for Resigning

Rather than sign the document which he believed might possibly draw the United States into war, Mr. Bryan submitted his resignation in a letter declaring that "the issue involved is of such moment that to remain a member of the cabinet would be as unfair to you as it would be to the cause which is nearest my heart, namely, the prevention of war."

The president accepted the resignation in a letter of regret tinged with deep personal feeling of affection. The letters, constituting the official announcement of Mr. Bryan's departure from the cabinet to private life, were made public at the white house at 6 o'clock tonight.

### The Letter

Washington, D. C., June 8.—Secretary Bryan's letter of resignation was as follows:

"My Dear Mr. President:

It is with sincere regret that I have reached the conclusion that I should return to you the commission of secretary of state with which you honored me at the beginning of your administration.

Obedient to your sense of duty and actuated by the highest motives you have prepared for transmission to the临时 government a note in which I cannot join without violating what I deem to be an obligation to my country and the issue involved is of such moment that to remain a member of the cabinet would be as unfair to you as it would be to the cause which is nearest my heart, namely, the prevention of war.

I therefore respectfully tender my resignation to take effect when the note is sent unless you prefer an earlier hour. After desirous of reaching a peaceful solution of the problems arising out of the use of submarines against merchantmen we find ourselves differing irreconcilably as to the methods which should be employed.

"It falls to your lot to speak officially for the nation. I con sider to be the less of my duty to endeavor as a private citizen to promote the end which

you do not feel at liberty to us. In severing the intimate and pleasant relations which have existed between us during the past two years, permit me to acknowledge the profound satisfaction which it has given me to be associated with you in the important work which has come before the state department and to thank you for the courtesies extended.

With the heartiest good wishes for your personal welfare and for the success of your administration I am, my dear Mr. President, very truly yours,

(Signed) W. J. Bryan

### Acceptance of Resignation

The president's letter to Mr. Bryan was as follows:

"My Dear Mr. Bryan:

I accept your resignation only because you insist upon its acceptance and I accept it with much more than deep regret with feelings of personal sorrow. Our two years of close association have been delightful to me. Our judgments have accorded in practically every matter of official duty and of public policy until now your support of the work and purposes of the administration has been generous and loyal beyond praise. Your devotion to the duties of your great office and your eagerness to take advantage of every great opportunity for service it offered has been an example to the rest of us. You have earned our abiding gratitude and friendship. Even now we are not separated in the object we seek but only in the method by which we attain it.

It is for these reasons my feeling about your retirement from the secretaryship of state does so much deeper than regret. I sincerely deplore it. Our objects are the same and we ought to pursue them together. I yield to your desire only because I must and wish to bid you God speed in the parting. We shall continue to work for the same causes even when we do not work in the same way.

With affectionate regard sincerely yours,

WOODROW WILSON

## FRENCH ARE TAKING OFFENSIVE IN WEST

London, June 8 (12:20 p. m.)—Ayton, the entire western line of battle except those portions held by the Belgians and the British has been the scene of what would appear to be a series of offensive movements initiated by the French.

In the region of Artois the French have extended the area of their attack while they are pressing on along the front from the angle of the Aisne and the Oise in a northerly direction as far as the British positions near La Bassée where the British forces are living apparently present.

For the past three weeks the French have been advancing slowly but steadily in the country immediately north of Artois. Here they met determined resistance from the formidable German wall known as the Laon Ante, part of which however now is in their control. The French have been taking many prisoners. At Reutemont they have taken some 400 and at S. S. 200.

Desperate German counter attacks according to the French report have been made but with no success and with terrible losses to the attackers. The German official communiqué makes but brief reference to events on the western front merely recording the repulses of French attacks.

Rivers figure more or less prominently today in the reports from both sides. From the east an front the Russians claim to have pushed their offensive movement across the Pruth near Kolymer while Petrogrod has admitted the advance of the Austro-German across the river Donester in Galicia. The river Danube, flung bands five times in one day with the Russians finally in possession and the Isonzo is the scene of the most important Italian advance and Austrian territory.

With affectionate regard sincerely yours,

WOODROW WILSON

## BULGARIA AND RUMANIA WILL STAY NEUTRAL

Cologne, Germany, June 9.—At London 3 p. m.—The chances that Bulgaria and Rumania will enter the war with the allies are diminishing says a Berlin dispatch to the *Compte Gazette*.

The political heavens of the Balkans have cleared somewhat the dispatch says. Rumania has rejected the first offer of the triple entente as unsatisfactory. Bulgaria has received offers from the entente. It is not known if Bulgaria has formally rejected them but she is in agreement with Rumania and the latter has rejected the offers. Bulgaria probably will do likewise.

"The assumption is the more now or never."

## VICTORIA CROSS IS AWARDED CANADIAN FOR WRECKING 'ZEP'

London, June 9 (12:20 p. m.)—The Victoria Cross one of the highest military honors in the world was today conferred upon Reginald A. J. Warneford, the young Canadian aviator who in a battle six thousand feet above Belgium and yesterday wrecked a giant Zeppelin with the loss of 28 German lives. The bestowal was made by King George personally who ordered that news of the honor be telegraphed to Sub-Lieutenant Warneford at the front immediately.

Warneford is a national hero. All the papers devote much space to his brilliant aerial exploit. Advertisers from the front in France state that the young aviator is none the worse for his exciting adventure and his narrow shave from death while fighting the Zeppelin.

**RECOVER SKILLET LOST IN BATTLE 52 YEARS AGO**

Gardeden, Als., June 9.—In the heat of battle at Petersburg in 1863 A. Christopher of Company F, tenth Alabama C. S. A. found he would not be able to carry all his luggage away and buried his skillet in the dirt, thinking he would return and get it. He did return but it was last week while attending a reunion at Richmond and it was 52 years after the battle. Mr. Christopher located the spot and dug up the skillet. He has it on display at a bank in Atchison, Mo. Christopher was accompanied by H. C. Farris when he located the skillet.

## ATTEMPT JAIL DELIVERY, BUT PLANS FAILED

Sheriff May Says Prisoners Claimed They Wanted More Ventilation

By sawing bolts out of three of the outside windows of the county jail, it is believed that some of the prisoners were trying their plans to escape but the discovery of the condition of the windows about 3 o'clock this afternoon foiled the plans of the supposed conspirators.

In discussing what prompted the men to jail delivery, Sheriff John A. May said that one of the prisoners said they wanted more ventilation and that is why the bolts were severed by the use of a saw.

The baseball matinee will be held in front of R. L. Valentine's store, North Foster street, starting this afternoon at 4 o'clock. The matinee will be given at this place each day while the home team is away. The electric base ball board will be used to show the different plays.

## WINNERS OF TICKETS TO PALACE THEATRE

Yesterday's free ticket contest was too hard for one and only 3 correct answers were submitted. There were some other answers that were only partly correct as only the name of the moving picture star was given and the advertisements in which the superfluous letters were found were left out. The answer to be correct had to have the name of the movie star and the advertisements in which the superfluous letters were found that made up his name. The following winners may call at The Eagle office in the morning and receive their tickets.

London, June 9 (12:15 p. m.)—The submarine then sent 12 shells into the *Trondhjem*. The shooting brought out a patrol boat from Milford Haven, which picked up the skipper and crew, numbering thirteen, from the boat. During the operation the submarine attempted vainly to torpedo the patrol boat.

The men from the *Trondhjem* were landed today at Milford Haven. The sinking of the *Superb* occurred fifty miles west of Fastnet. High explosives were placed on board the vessel after the crew had taken to the boats. 17 survivors were landed today at Marsigate.

## GREAT VICTORY IS CLAIMED BY TURKS OVER THE BRITISH

Berlin, Monday, June 7.—(By wireless to Sayville, June 8)—The Overseas News Agency today gave out the following:

A telegram from Constantinople says the Turks repulsed British attacks at Seddul Bahr. Thousands of dead Englishmen covered the field. The Turks captured seventeen machine guns as well as rifles and other war material.

The following evidently refers to an engagement reported in an official statement issued at Constantinople Sunday. This statement announced a Turkish victory on the Seddul Bahr front, but gave no details in regard to British losses further than that they were heavy.

## The Month of June

Commercial Appeal  
May the blushing month be gone, and with May depart spring. June more radiant than the preceding months usher in the summer season.

With June comes the land gardens yield up their roses and heaven's fragrant indes of abundance of blossoms.

June is a month of joy, a month of relaxation, a month when we begin to receive the bounty of the earth.

Tender plants watered with the tears of April and strengthened by the warm sunbeams of May come to June in nature's bunting. They come into the fruition of their best days. The farms, orchards and fields are green with yielding crops. It is the month when the world is in a productive mood. The birds in their nests coo gently to their feathered young. It is the mating season among animals, as well as men.

"And what is so rare as a day in June?

Then if ever come perfect days, Then heaven tries the earth if it be in tune.

And over it softly her warm sun lays."

So wrote Lowell, that sweet singer of song, and all can but sympathize with Bobby Burns when out of the sheer joy of living, he confided the thought of his poetic mind. "Oh, my love is like a red, red rose that's newly sprung in June."

All thoughts of love seem to turn to this bewitching month of matrimony. The nights, so soft and southern, seem to whisper tender sentiments. The moon in June, brings lovers together and brides of June seem doubly blessed. Photographic perfection in all things can be found in June. The moonlight of the morning frost seems almost like spun silver. Dawn paints the world in subdued tints. It does not come reluctantly like the dawn of March but, with a short, sharp sigh, and the world awakens. The notes of the birds echo sweetly through the cool, fresh air and rustling leaves.

June is the month when the hearts of men grow tender and even the atrophied veins of the old seem to tingle again with life's warmest and freshest blood. The days of June are filled with slanting but steady sun shine. The nights are persuasive and the katydid is most assiduous.

In the orchards Nature points with pride to the fruits of time and the young trees, which in May were bowers of blossoms seem to feel the responsibility of their gifts to man.

When evening soft and throaty comes the slowly fading light is punctuated with the chatter of our feathered friends in suspended cadences.

June brings heat but the torrid and tempestuous heat of the midsummer months lies yet to come. July will find a hot city hemmed in by insiduous walls. In June we have hot days but this month of life giving this creative month plays a poetic part in the drama of the year. It is the serenest, the loveliest, the most blushing month of all the twelve.

This International Harvester Engine Fills Your Needs

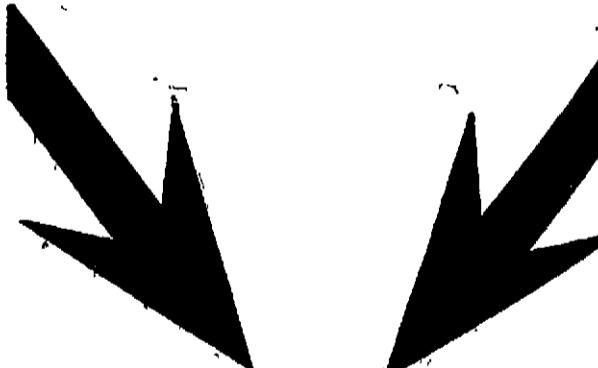

THIS I. H. C. hopper-cooled engine meets the demand for in on me that can easily be mounted on a farm truck, making a portable outfit for use with special machinery, such as well drills, concrete mixers, saw mills, and portable pumping plant.

The motor is very quiet, the weight is light yet sufficient and a comparatively small amount of weight is needed for cooling. In a hopper-cooled engine there is a danger of frost from freezing at the open top of the hopper, allows the water to expand.

This engine contains all the good qualities mentioned in our previous advertisements and in many others which you will find printed when you see them. It is one of the most satisfactory engines made from the point of view of economy. It turns a farm with the economy of a steam engine and it is a good deal of no better machine for the rough, heavy work of the average farm.

## Dothan Has Hard Luck

Paschal and Chambers Struck Out With Three Men on Base—Waycross Wins 4 to 3.

Waycross, June 8.—Antley fanned dangerous Dothan batters at critical moments today and Waycross won a hard fought game 4 to 3. Waycross got the lead by bunching six singles in succession. In the seventh, with the bases full, Antley fanned Paschal and Chambers.

Two escape from Convict Camp  
 Montgomery, Ala., June 9.—Report of two escapes from the state convict department Monday. Buddie Rusher, Morgan county convict, escaped from Farm No. 4 in Montgomery county Friday afternoon and has not been seen since. The warden reported that Rusher had been gone twenty minutes before his absence was discovered. He was followed to a swamp near Pickett Springs and several shots were fired at him, but he went into the swamp and the dogs lost the trail. He was serving four years for burglary.

## PRINTERS WIN GAME.

The Printers baseball team trounced the Bay Line Giants yesterday afternoon at Baker field, the score being 23 to 6. D. Ussery, twirling for the Giants, was touched for many hits by the Printers. Sellers and Lawson divided honors for the Printers, with Cas Price catching. There is some talk of the clerks organizing a team to play the Printers, if they can muster enough nerve. The batteries yesterday were Printers, Sellers, Lawson and Price; Giants, Ussery and C. Fuller.

## TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens So Naturally No-body Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussel mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dandruff, itching scalp and falling hair.
